Believe In The Beauty Layout

PRODUCT LIST

- Farmhouse Market Collection Kit • Gold Decorative Numbers CBFAR113068 (add-on product) • 4x6 inch photo • White Cardstock • Twine • Foam Adhesive Dots • Adhesive • Sewing Machine • Hole Punch

ASSEMBLY INSTRUCTIONS

1. Use CBFAR113012 Floral Corners paper as the background. Stitch a simple border around the edge using your sewing machine.
2. Stitch a simple border around the gingham paper using your sewing machine.
3. Center the text paper on top of the pink paper, then center both on top of the gingham paper.
4. Center the photo onto the text paper and add a strip of the washi tape approximately 2" long at the top of the photo.
5. Adhere the matted photo to the center of the background paper using adhesive on the back of the gingham paper across the top and bottom of the piece only. This will allow you to tuck your tag in behind.
6. Stitch around the edge of your white cardstock tag and tie some twine to the hole. Add your journaling to the tag and tuck it in behind the right side of the gingham paper.
7. Add an embellishment of your choice to the bottom right corner of the photo. We used the gold numbers from the add-ons, but you could choose to use a word sticker, chipboard word or alphabet stickers from the kit contents or your personal stash.
8. Next, adhere the fussy cut flower and leaves with foam dots near the bottom right corner of the photo.
9. Adhere the tiny chipboard "LOVE" word on top of the number title.
10. On the left side of the photo create an embellishment cluster using the chipboard frame, the circular phrase sticker, floral puffy sticker and tiny circular heart sticker.
11. Pierce a tiny hole at the top of the key sticker from the sticker sheet and add some twine. Adhere the key to the page so it appears to be hanging down from the embellishment cluster using foam dots.
12. To finish off the page, arrange a chipboard butterfly and two butterfly stickers around the page.

CUTTING LIST

- Cut red side of CBFAR113002 Lovely Floral paper to 6" x 8"
- Cut pink side of CBFAR113017 Lt. Pink/Black paper to 7/8" x 9.25"
- Cut pink side of CBFAR113017 Lt. Pink/Black paper to 1.5" x 12"

Happy Day Gift Packaging

PRODUCT LIST

- Farmhouse Market Collection Kit • Gold Decorative Numbers CBFAR113068 (add-on product) • Twine • Ruler • Strong Adhesive • Sewing Machine • Scoreboard or bone folder • Hole Punch

ASSEMBLY INSTRUCTIONS

1. Curl red paper around to make a cylinder, adhering the 6" ends together using strong adhesive.
2. Squash one end of the cylinder flat, making sure the seam is centered at the back. Use your sewing machine to sew along the edge. You could also use strong adhesive like redline tape.
3. You can now add your little gift inside before closing the other end.
4. Squash the open end flat in the opposite direction. Use your sewing machine or strong adhesive to adhere it shut.
5. Adhere the long floral sticker across the middle of the 7/8" x 9.25" pink paper strip. Add machine stitching along the floral sticker for added texture.
6. Wrap this strip around the middle of the package and adhere into place with strong adhesive.
7. Take the 12" strip of pink paper and score a line across the paper every 1/2" inch. You will then folder the strip accordian style and adhere the ends together. Flatten the piece so it forms a circular rosette.
8. Add strong adhesive to the center back of the rosette to hold it in shape then adhere it to your package.
9. Using foam adhesive, add the circular floral sticker to the center of the rosette and add the gold numbers on top using foam dots. If you don't have the gold numbers, you could add a word or chipboard sticker on top, but the package also looks just as pretty with the floral sticker on its own.
10. To complete the project, punch a hole in the chipboard tag, then dust the back of the tag with talcum powder, to remove the tack. (Alternatively you could stick some pretty paper to the back.) Add some twine and tie the tag to the rosette. A tiny xoxo sticker can then be added to the bottom right of the tag.
